Pharmaceutical

Topical Spray

Zincodern used to protect the skin against wound secretions and other substances with a harmful effect on the skin.

DOSAGE AND ADMINISTRATION:

- Shake well before use.
- Spray onto the clean and dry skin from a distance of 10 to 20 cm.
- cover the surrounding areas of skin in case of fistulas or impregnation of bandages (prevents adhesion to the wound).
- Skin protection prior to application of plaster bandages.

INDICATIONS:

Zincodern used to protect the skin against wound secretions and other substances with a harmful effect on the skin.

WARNINGS:

- Use only in a well-ventilated area.
- Do not spray on or near the eyes.
- Gloves should be worn during the use.
