# CALCIDERN

HORSE

## Balanced Calcium / Phosphorus Ratio - Powder

### DOSAGE AND ADMINISTRATION:

For adult horses: 2 scope per day (approximately 50g)  
It is recommended to divide the amount into two feedings: 1 scope in the morning and 1 scope again in the evening.

For ponies horses: 1 scope per day (approximately 25g)  
It is recommended to divide the amount into two feedings: ½ scope in the morning and ½ scope again in the evening.

### INDICATION:

CALDERN is a mineral feed for horses, designed to provide a balanced ratio of Calcium and Phosphorus in the diet for young growing horses, adult horses receiving feed with significant cereal content, and lactating mares. It also contains Vitamin D3 which assists in the absorption of Calcium into the bones.

### COMPOSITION:

Each 5 Kg contains:

VitaminD3	30000 IU
Calcium	1200000 mg
Phosphate	600000 mg

### WITHDRAWAL PERIOD:

None

5000 gm ± 2%

( below 30°C )
